

\$5 OTC (OVER-THE-COUNTER) DRUGS AVAILABLE

Available exclusively to Employees & Dependents enrolled in a City of Frisco medical plan

Rules and tips for this discount:

1. Find out what medication and quantity you currently take or need and ask your physician to write a script.
2. ***The prescription must be written for the exact drug name, quantity, etc. that is on the package you purchase.*** (EXAMPLES: Fexofenadine, 24-hour, 30 tablets; Allegra-D, 12-hour, 15 capsules)
3. Call your local pharmacy in advance to ensure that your medication is in stock.
4. When you go to the pharmacy, pick up your medication from the shelf and present it *with your prescription* at the pharmacy register.
5. The \$5 copay is the price per package purchased, whereas typical prescription medications are written for dosage and days.
6. You will pay full retail price for your drugs **if** you do not present a prescription at the pharmacy.
7. Although a prescription is not required by law to purchase OTC drugs, the City's prescription drug program requires it so that you can receive the discounted price.
8. Medications covered under this benefit are subject to change as new drugs become available and other drugs are discontinued by the manufacturer.
